

HOUSING OPPORTUNITIES NEEDED FOR PHYSICAL THERAPY STUDENTS

Remember being a student on a clinical rotation? Was it difficult to find housing? Or did someone help you out? We are looking for individuals who would be willing to host physical therapy students during their clinical rotations. Rotations vary in length, and they occur throughout the year. The particulars regarding cost and availability can be worked out with the students on an individual basis. Maybe you don't have a spare room to let, but you would be willing to talk with students regarding local attractions and/or other furnished housing opportunities in your area. Either way, let's network to help the next generation of PT's!
